Professional Summery

Azure DevOps Engineer with 13+ years of IT experience and strong expertise in cloud automation, CI/CD, and Infrastructure as Code (IaC). Hands-on experience with Terraform, Azure DevOps, GitHub Actions, AKS, VMSS, and Azure Networking, delivering secure, scalable, and cost-optimized cloud solutions. Skilled in building end-to-end CI/CD pipelines, implementing cloud security (RBAC, MFA, Conditional Access), and designing robust monitoring solutions. Proven track record of **reducing deployment time, improving system reliability, and optimizing cloud costs** while aligning technology initiatives with business objectives.

Technical Skills

- **Cloud Platforms:** Azure Cloud
- **IaC & Automation:** Terraform, PowerShell Scripting
- **Identity & Access:** Active Directory, Entra ID, RBAC, Conditional Access, MFA
- **Monitoring & Backup:** Azure Monitor, Log Analytics, Prometheus, Grafana, Azure Backup
- **Networking:** Vnet, DNS, Load Balancer, App Gateway, VPNs, NSGs, Firewalls
- **CI/CD:** Azure DevOps, GitHub Actions
- **Containerization:** Docker, Kubernetes
- **Soft Skills:** Strong problem-solving, calm under pressure, quick learner

Projects:

1. End-to-End Cloud Automation Using Terraform (Azure)

- Designed and implemented **end-to-end Infrastructure as Code (IaC)** on **Microsoft Azure** using **Terraform**, enabling fully automated and repeatable cloud infrastructure deployments.
- Developed **reusable and modular Terraform modules** for Azure resources including **Virtual Machines, VM Scale Sets (VMSS), Virtual Networks, Subnets, NSGs, Azure Kubernetes Service (AKS), Application Gateway, and Identity & Security components**.
- Built a **multi-stage CI/CD pipeline** using **Azure DevOps / GitHub Actions** to automate **Terraform fmt, validate, plan, and apply**, ensuring consistent and error-free infrastructure deployments.
- Implemented **remote state management, environment isolation (Dev/QA/Prod), and approval gates**, improving governance and preventing configuration drift.
- Reduced **manual infrastructure provisioning effort by ~80%**, significantly improving deployment speed, consistency, and compliance.

Tech Stack: Terraform, Azure DevOps, GitHub Actions, Azure AKS, VMSS, Azure Networking, IaC, CI/CD.

2. Lift-and-Shift Migration of Monolithic Application to Azure

- Led the **lift-and-shift migration** of a **ReactJS + Python monolithic application** from on-premises infrastructure to **Microsoft Azure**, ensuring minimal downtime and business continuity.
- Designed a **highly available and scalable architecture** using **Azure Virtual Machines, VM Scale Sets (VMSS), and Azure Load Balancer** with auto-scaling capabilities.
- Implemented **CI/CD pipelines in Azure DevOps** for automated build, artifact packaging, and deployment using **VM Extensions**, enabling faster and reliable application releases.

- Configured **Network Security Groups (NSGs)**, **Azure Firewall rules**, and **Azure Backup**, enhancing application security, access control, and disaster recovery readiness.
- Integrated **Azure Monitor**, **Log Analytics**, and **centralized logging**, improving observability and reducing **Mean Time to Resolution (MTTR)** by ~35%.

Tech Stack: Azure DevOps, Azure VMs, VMSS, Load Balancer, Azure Monitor, Log Analytics, NSG, CI/CD, Cloud Migration.

Professional Experience

Brindavan Bottlers Pvt Ltd -

Jun 2024 to Present | Lucknow

- Designed and deployed **Azure cloud infrastructure** including **VMs**, **AKS**, **Application Gateway**, and **Load Balancer** using **Terraform (IaC)**.
- Automated provisioning and auto-scaling of cloud resources, ensuring **consistent, repeatable, and reliable deployments** across environments.
- Implemented **DevSecOps practices** by integrating security scanning tools such as **tfsec**, **tflint**, and **Checkov** into CI/CD pipelines.
- Designed and implemented **Azure Hub-and-Spoke network architecture** using **VNet peering**, enabling centralized security and seamless inter-workload communication.
- Configured **VNets**, **Subnets**, and **Network Security Groups (NSGs)** to enforce secure and efficient traffic flow between Azure resources and external networks.
- Deployed and managed **Azure App Services** for web applications, automating deployments through **Azure DevOps CI/CD pipelines** and **GitHub Actions**.
- Utilized **Git** for version control and Infrastructure as Code (IaC) management, enabling collaborative development, change tracking, and safe rollbacks.
- Achieved **~25% reduction in cloud costs** through effective use of **Azure Cost Management** and proactive resource optimization.
- Optimized Azure infrastructure for **scalability, high availability, reliability, and cost-efficiency**, aligning solutions with evolving business requirements.

Balaji Railroad Systems Pvt Ltd -

Sept 2023 to May 2024 | Secunderabad, Telangana

- Designed, implemented, and managed **automated infrastructure provisioning and deployment pipelines** using **Terraform** and **Azure DevOps**, ensuring consistent and repeatable infrastructure delivery.
- Collaborated closely with **development and operations teams** to streamline **CI/CD pipelines** in Azure DevOps, enabling reliable deployments across **Dev**, **QA**, and **Production** environments.
- Planned, implemented, and maintained **Infrastructure as Code (IaC)** using Terraform, delivering **scalable, reliable, and cost-effective** Azure cloud infrastructure.
- Optimized Azure cloud resources for **performance, availability, and cost-efficiency**, reducing operational overhead and aligning infrastructure with business requirements.
- Enhanced **Azure networking architecture**, including **traffic routing**, **secure VPN gateways**, **VNet peering**, and **load balancing**, improving security, performance, and reducing latency.
- Managed **VNet peering** and **Azure Load Balancers** to ensure efficient inter-service communication and **high availability** of applications.
- **Led IT Operations and managed overall IT infrastructure operations**, providing technical guidance and ensuring service stability.

LRS Services Pvt. Ltd -

May 2022 - Sept 2023 | Varanasi, UP

- Experience with **Azure Active Directory (Entra ID)** cloud services, including user and access management.

- Designed and deployed **Azure cloud infrastructure** including **VMs, Virtual Networks, Subnets, NIC, Network Security Groups (NSGs), Load Balancer, Storage Account and MS-SQL** using **Terraform (IaC)**.
- Implemented and maintained **CI/CD pipelines in Azure DevOps** (both **YAML and Classic**), automating infrastructure deployments.
- Managed and maintained **Azure IaaS resources** including **Virtual Machines, Virtual Networks (VNETs), Network Security Groups (NSGs), and Storage Accounts**.
- Integrated **Azure Blob Storage** with applications to enable scalable and high-performance unstructured data storage.
- Administered **Microsoft 365 Admin Center**, including user creation, license assignment, permission management, policy application, password resets, and user deactivation.

Karvy Innotech Ltd -

Jan 2021 - April 2022 | Varanasi, UP

- Hands-on experience with **Azure Cloud Services across IaaS, PaaS, and SaaS models**, supporting infrastructure, application platforms, and productivity services.
- Worked extensively with **Azure IaaS** components such as **Virtual Machines, Storage Accounts, and Networking**, ensuring availability and reliability.
- Configured **Azure storage redundancy options (LRS, GRS, and ZRS)** to ensure high availability, durability, and data protection.
- Enabled secure and seamless file sharing using **Azure File Shares**, integrating on-premises systems via the **SMB protocol**.
- Administered **Microsoft 365 Admin Center**, including user creation, license assignment, permission management, policy application, password resets, and user deactivation.
- Managed **vendor coordination, IT asset management, IT procurement, and AMC & software licensing**, ensuring cost control, compliance, and operational efficiency.

Previous Experiences — Various Organizations Jan 2012 – Sept 2020

- **Mobineers Info Systems Pvt. Ltd** - Technical Support Consultant
Feb 2020 - Sept 2020 | GOA
- **Harish-Chandra Research Institute (HRI)** - Computer Assistant
Dec 2018 - Jan 2020 | Allahabad-UP
- **Aforeserve.com Ltd** - Customer Support (Project Lead)
Feb 2018 - Dec 2018 | Kanpur-UP
- **Wipro Ltd** - Network Administrator L1
July 2017 - Oct 2017 | Deoria-UP
- **Renovision Automation Services Pvt Ltd** - Desktop L2
July 2014 - June 2017 | Kanpur-UP
- **HCL Infosystems Ltd** - Customer Support Engineer
Jan 2012 - June 2014 | Lucknow-UP

Education:

- **Graduation** from Kanpur University
- **Diploma** in Computer Science & Engineering from UPBTE
- **Intermediate** from U.P. Board Allahabad
- **High School** from U.P. Board Allahabad
